Congratulations and best wishes to the Dales of Mayfield (Joe and Ann) and the Kellys of Archbold on the birth Thursday, Oct. 8, of Timothy Edward Daley at Mercy Hospital, Scranton. Little Timmy's parents are Timmy and Joanne Daley Kelly, and the proud maternal grandparents (first-timers) are Joe and Ann. The new arrival, who made his appearance just about two weeks late, weighed in at 8 pounds, one ounce. Welcome to the world, Timmy!

## Mirror reports

## City hall reports

**Fallen limb**

The city recently had to cut down a tree on the Sixth Avenue side of Memorial Park, opposite city hall.

Initially, one limb was hanging from the tree, bringing complaints from those who frequent the central city park during warm weather.

Street foreman Paul Mink went to cut the offending limb off the tree and found the whole tree diseased, with a cavity through the center.

"Thus, the tree was cut down as intended. According to managing director Martin P. Judge, there are no immediate plans to replace the tree.

**Street sweepers out**

The city's street sweepers are still out and cleaning up city streets every day.

But it won't be long before the cleaning equipment is put away for the winter.

The city's managing director, Martin P. Judge, told the traffic signals at the intersection began flashing as a result of a thunderstorm the evening of Sunday, Sept. 27.

A city hall source said that the electrician who works on the lights when they malfunction has been working out of town and the city has been unable to get him.

**The problem is...**

The problem is that they're out of money, the Carbonade MIRROR was told about the city's seeking state help in setting up the 1982 budget (see last week's Carbonade MIRROR).

The city's administration explained to the MIRROR that council acted on its own in asking for the help of the Department of Community Affairs; the administration had not asked for any help.

In 1977, the state agency helped the city in setting up its books.

But that's not the problem, the MIRROR was told last week. "All the bookkeeping systems in the world won't help."

It is up to city council, the spokesman added, to pass a tax hike if they want the present services maintained; for now, the money, the MIRROR was told, nothing else.

**For flowers, grass**

A gap of 10 inches exists between the sidewalk and curb along the recently reconstructed Dunduff Street.

Managing Director Martin P. Judge told the Carbonade MIRROR that the gap will be added.

He also said that some people along the street have told the project inspector that they are looking forward to planting flowers and trees in that carbon gap.

**Still flashing**

The traffic signals at Sixth and Main in downtown Carbonade were still flashing stop on Sixth Avenue and caution on Main Street.

As reported last week (see last city hall report), the traffic signals at the intersection began flashing as a result of a thunderstorm the evening of Sunday, Sept. 27.

A city hall source said that the electrician who works on the lights when they malfunction has been working out of town and the city has been unable to get him.

**The problem is...**

The problem is that they're out of money, the Carbonade MIRROR was told about the city's seeking state help in setting up the 1982 budget (see last week's Carbonade MIRROR).

**Dunduff's binder down**

All of the binder course was put into place last week on Dunduff Street, city hall sources told the MIRROR.

The final course was scheduled to be put down on Monday.

The paving of the main West Wendover turnpike marks the near completion of the reconstruction of the street.

The project included putting new storm sewers in, constructing new curbs and sidewalks, and the complete reconstruction of the street.

Apparently, only finishing touches, such as landscaping and cleaning up, remain to be done.
